Proposed Test of Law's Constitutionality

Washington-The Adamson eightnour day bill, exacted from Congress romance is laid in a city on the westlast week by the railroad brother- ern coast, a seaport from whose harnoods as the price of calling off the Nation-wide strike ordered for last Monday, was signed by President Wilson last Sunday in his private car at the Union station, where he buttons. stopped on his way from Shadow Lawn, N. J., to Hodgenville, Ky. That there may be no question as to the legality of the measure as a result of it having been signed on Sunday the President will affix his signature again upon his return to Washington

How long peace shall reign as a result of the bill is dependent upon developments in the proposed test of the constitutionality of the act. Should the railroads take no action, but await the beginning of an investihour day by the special commission for which the measure provides, the brotherhoods will remain inactive.

The employes' leaders declare nowever, that should the law be held unconstitutional and the railroads attempt to restore the ten-hour day on their lines a strike will follow promptly.

None of the brotherhood leaders witnessed the signing of the bill. They had expected, according to tentative arrangements made by Secretary Wilson, to be present, but the President decided to attend to the business at the railroad station. The four pens used by the President in signing the bill-one for each syllable of his name—will be presented to the four brotherhood heads, A. B. 78, Garretson, W. G. Lee, W. S. Carter Stanislaus county's wealthiest men, is re-signing the bill on Tuesday.

## REALLIE ROWANCE

PRANK OF FATE THAT RESULTED IN HAPPY MARRIAGE.

She Was the "Other Girl" and He the Only "Good Looker" in the Regiment Which Was Embarking for War.

The scene of the first chapter of this bor there sailed during the year of the Spanish-American war many transports carrying to the Philippines troops of gay and gallant soldiers, most politely generous with their brass

On one of these occasions two young girls, thirsting for adventure, fared forth, armed with a kodak. Snapshots were taken of the seldiers marching down one of the principal streets from the train to the wharf, but a sad melancholy settled down upon the pair when they were forced to admit that these men were, Oh! so ordinary looking, not nearly so handsome as some of the regiments had been.

However, to vary the dull monotony which the whole episode was gradually assuming, they amused themselves while the men were boarding the ship in endeavoring to pick out the really good-looking one. And they did-one, and one only. But he, being by that time on the upper deck, was quite unattainable, so all the joy that could be extracted from an afternoon which had given such promise was the pleasure of waving good-by to him as the ship sailed away.

But what was their surprise when the snapshots of the marching soldiers were printed to discover that their 'good-looking man" appeared in one of them. The pictures were soon pasted into a book and the incident apparently closed.

The scene of the second and closing chapter is now shifted to a town about ten years later.

One of the two girls was living in this town. She was a schoolteacher. At a social gathering she met a young man who afterward called on her.

In the course of conversation she gave the name of her former home, and the young man remarked that he had been in that city just twice, once when he embarked with his regiment bound for the Philippines and once when he was on his way back after

Of course, the old book of kodak views was promptly unearthed, and the girl was not a little surprised when he greeted the picture of "the good-looking man," with the rapturous announcement that it was his old comrade, Jack

then, unable to contain himself any longer, he shouted with laughter.

Needless to say, Sarah has never forgiven Jacob for allowing her to go is mentioned she looks at Jacob in a commanding way, warning him not to attempt to tell of her tramp.

tober 2, continuing until the end of

When he returned he would bring him around, if he might, to see the pictures, in which he was able to distinguish many of his former friends. Jack came, he saw, he conquered, with the usual happy ending. I am and was the other girl.—Chicago Tribune.

Eye Protection at Movies. Physicians are constantly advising patrons of the movies to protect their eyes. A writer in the Journal of the American Medical Association tells

how it may be done. "The progress made in the character of subjects presented in the movies today makes it desirable for all inquiring people to at least attend occasionally," he says. "Annoying after-effects on the eyes of many prevent them from enjoying the social divertages, thus derived. The great majorafter watching moving pictures can find much, if not complete, relief in perfectly fitted glasses. The picture may not be quite so sharp, but this is more than compensated for by the increased comfort.

"For those with very sensitive eyes a colored glass, either amber, yellowish green or amethyst, may be necessary to give complete relief. There have been put on the market recently several varieties of colored glass, each of which has some advantages, so that some suitable color can usually be secured. A subdued light in the theater is much less irritating than when the only light visible comes from the screen. It is also advisable to avoid sitting in a place where it is necessary to look upward, as the additional strain becomes very tiresome, and frequently leaves a headache."

Freeze Feet in Midsummer. How 150 Italian infantrymen were invalided by freezing their feet in midsummer was told by a passenger arriving at New York on the French liner

La Touraine.

The men were members of a battalion of Alpine infantry, and had gone The whole street will be in holiday to a point far above the snow line in dress, as will all of the downtown an attempt to surprise an Austrian force that in no other manner could be district. Flags will fly, while buntousted from its position. They had been carefully drilled in walking on all fours and acting the parts of goats and sheep.

Two days after leaving camp remcause of a terrific storm and because sharp pieces of ice tore their flannel leggings and exposed their feet.

"Odd, isn't it, that age is a recommendation in wine and a drawback in women?"

"Not at all. You can put it down in the one, but you have to put up with it in the other."

Distribute it from the trunk out as

### GET INFORMATION ON SPRAYS

When in Doubt Write to State Experiment Station or Department of Agriculture at Washington.

If you are not perfectly sure that you know just when and how the spraying should be done, write immediately to your state experiment station, or the department of agriculture, Washington, and ask for information. It will be furnished in printed form, free of charge, and very plainly stated. Don't put it off. Write today.

## Mother's Cook Book.

"We pension a soldier who loses a leg in battle against a man-foe. But do we pension a mother who wears out her eyesight mending half the night, keeping the wolf from the door, fighting off that elemental foe of the race—Hunger Fright?"

Oatmeal Scones.

Take a cupful of oatmeal, one-third spoonful of baking powder and onely. Serve at once.

Broiled Lamb's Kidney.

Split as many kidneys as are needed and remove the fat and sinew, then soak in acidulated water. Drain and wipe dry. Immerse in olive oil and broil. Serve on toast, garnished with parsley and lemon.

Curried Chicken With Coconut. Parboil a chicken cut in pieces, then roll in flour in which a teaspoonful of

curry has been mixed, fry in butter and drippings until brown. Have a fresh grated coconut with two cupfuls of water and a dash of lemon and the coconut milk added to the chicken, thicken and serve with riced potatoes. Scotch Fancies.

Take one egg, well beaten, add a half cupful of sugar, one-third of a cupful of coconut, a dash of salt and a half teaspoonful of vanilla, a twothirds of a cupful of rolled oats, mix and drop on a baking sheet. Let stand a few minutes when taken from the oven to make them firm.

Rice.

Cook unpolished rice until tender in plenty of boiling water, season with such other important corn pests as salt and serve with cream and sugar. This rice is much more nourishing than the polished rice commonly on the market.

Mixed Fruit Ice Cream.

Take the juice of three oranges, three lemons, three bananas, and a cupful of cooked apricots, three cupfuls of sugar and three cupfuls of rich milk, put the apricots and bananas through a sieve and mix the other ingredients until the sugar is dissolved. Freeze as usual.

lette Maxwell ፟፟፟፟፟፟፟፟፟፟ቝቝቝቝቝቝቝቝቝቝቝቝቝቝቝቝቝ**ቝቝቝቝ** 

decorations and home accessoof the rainbow are seen in these cushions for the swinging seat, the settee, the rocker, and general utility, but the combination of tints have been made so skillfully that the result, while undeniably vivid, is by no means unpleasing or crude. In the khakihued couch hammock, or in one of awning stripes in black or white, a group of these bright toned cushions presents a desirable contrast

### Fashion's Decrees.

Charmeuse gowns are prettily worn with small flower-trimmed hats. A great deal of shantung is used for summer costumes.

A simple frock or coat is set off by a double cape collar of muslin. Many of the new collars amount to capes, being full and reaching to the

finish for the edges of the wee tot's Charming sports hats are of straw

Feather-stiching makes a dainty

and trimmed with worsted cords and tassels. Heavy washing silk is used for the

serviceable and graceful cross-over blouses. Finish the round neck with a piece

of narrow ribbon tied in a fetching little bow in front. The soft pile fabrics in the most beautiful jewellike colorings are con-

stantly being used for big, loose wraps. Yellow organdie and white tulle make a charming frock. Very demure is the child's frock

of organdie with tiny bows of velvet ribbon set all the way down the front. We now have skirts designed especially for gardening. They are made of linen and have many large pockets. Frills of tulle complete some of the

de chine to be worn with tailored suits. There are nightgowns of pongee, and they are trimmed with bands of linen in contrasting colors.

new roll collars of muslin and crepe

Silk basques finished with cavalier tabs are charming with flowered voile skirts for bridesmaids' frocks.

#### Cause Explained. "There was great commotion on the

pier as the junior officer of the marine corps stepped ashore." "What's the matter?" asked a curi-

ous bystander? "Sub marine's just arrived in port," was the reply.

## Earliest Arrival in Fall Suits

spiration. For elegance and the spice of style, for general becomingness and class there is nothing better than the Russian blouse. It is exceptionally fine in rich fabrics, velvets and fine broadcloth. Fur belongs to it, and is destined to play a great role in trimmings.

The first of the new fall modes is presented in the picture above, for the benefit of those who must be prepared early for the coming of cool weather. It will be seen that it offers no startling departures from the lines that make up the silhouette of the day. The skil is full and cut very little longer than shoe-top length. In many of the new skirts the fullness

#### FAMILIAR PHRASES.

A Few of the Many Gems We Get From Alexander Pope.

With the exception of Shakespeare, Pope is the author of more familiar phrases than any other writer of modern times. Here are a few of his gems:

"Shoot folly as she flies." "Hope springs eternal in the human breast.' "Man never is but always to be blessed." "Whatever is is right," "The proper study of mankind is man." "Grows with his growth and strengthens with his strength." "Order is heaven's first law." "Worth makes the man and want of it the fellow." "Honor and shame from no condition rise; act well your part—there all the honor lies." "An honest man's the noblest work of God." "Thou wert my guide, philosopher and friend." "Woman's at best a contradiction still." "Just as the twig is bent the tree's inclined." "Who shall decide when doctors disagree?" "A little learning is a dangerous thing." "To err is human, to forgive divine." "Beauty draws us with a single hair." "Fools rush in where angels fear to tread." "Damn with faint praise." "The many headed monster."

The Blow on the Jaw.

A man struck with any degree of force upon the mental area of the jaw, although he may be in perfect physical condition, instantly collapses and falls to the ground, says a medical journal. The attitude assumed in recovery, which may be instantaneous or delayed some minutes, is most characteristic. He squirms about, raises his head and rolls his eyes in an attempt to locate himself. He tries to get on his side and elbow; he endeavors to rise upon his hands and knees. If he regains his feet he staggers like a drunken man. The blow is practically never fatal; the heart's action is never unduly accelerated; the pulse and respiration are normal; the pupils are normal; there is no headache, no sweats, no cold extremiTHE MONEY THEY CARRY.

Poor Men, as a Rule, Have More In Their Pockets Than Rich Men. The next time you meet John D. Rockefeller just ask him how much money he has in his pocket. Ask him how much he has in the safe at his house or in the safe deposit box at his bank-I mean real, old fashioned banknotes and dollar bills. Let me tell you that if at this very moment you and John D. Rockefeller should swap pocketbooks you would likely get stung. Mr. Rockefeller probably has not a cent more of real money in his pocket today than you have. In a general way this applies to all peoples all over the world. In many communities the workpeople carry more money about with them than the rich.

I well remember that once, at my chusetts, where real money is scarcer than fresh eggs, a very rich man who was visiting us asked me to cash a check for him as he was leaving for New York. On looking into his pocketbook he discovered he had only \$7.13! Well, I was even worse off, having only a five dollar bill and a few pennies. Even Mrs. Babson could dig up only a few dollars, as we have everything charged and pay by check.

We were just on the point of breaking open a child's bank when a painter working about the house overheard the conversation and suggested that perhaps he could cash a check for \$50! This workman had on him a roll of several hundred dollars in bills.-Roger W. Babson in Saturday Evening

## BAGPIPES AND BRICKS.

One Case In Which Music Did Not Do the Soothing Act.

The Adelphia buildings in the Strand, London, were built by two brothers of the family name of Adam, and from this fraternal union came the name that was given to the buildings, the Greek appellation of "Adelphi" or "the

These brothers were Scots and in the erection of the buildings desired to employ their own countrymen. So they sent to the "Land o' Cakes and Brither Scots" for laborers to do the

The story goes that after they arrived and were set at work they proved less active and energetic than was profitable to the employers, to whom a bright idea finally came. They acted upon this idea and brought to London from the north country a number

of bagpipers to encourage the toilers. At first all went well. When the bricklayers heard "O Hone a Rie." and the "MacGregors' Gathering" they worked rapidly. Unluckily one day one of pipers under the influence of London gin "gave the snap away" by admitting that he and his fellow bagpipers had been bribed to play in quicker time.

Following this exposure of foul play the men from the north put down

## A Great Psychologist on Prohibition

Hago Munsterberg, the wellknown professor of psychology at Harvard, is not a prohibitionist. On the other hand he believes that the prohibition method of dealing with the liquor problem is a mistaken method. Read what he has to say on the folly of prohibition:

"The railroads of the United States injured last year more than one hundred thousand persons and put out seven thousand hopeful lives; does any sane person argue that we ought to abolish railroads? The stock exchange has brought in the last year economic misery to uncounted homes, but even at the height of the panic no one wanted to destroy the market for indus-trial stock. How much crime and disaster and disease and ruin have come into the lives of American youth through women, and yet who doubts that women are the blessing of the whole national life?

"To say that certain evils come

from a certain source suggests only to fools the hasty annihila-tion of the source before studying whether greater evils might not result from its destruction, and without asking whether the evils might not be reduced, and the good from the same source remain un-touched and untampered with. Even if a hollow tooth aches, the modern dentist does not think of pulling it; that would be the rem-edy of the clumsy village barber. The evils of drink exist, and to neglect their cure would be crimi-

nal; but to rush on to the conclusion that every vineyard ought, therefore, to be devastated, is unworthy of the logic of a self-governing nation."

Can the prohibitionists who are asking you to adopt their fads in California point to one single man of the scholastic attainments of Dr. Munsterberg who approves their cause?

### HIS FATE A MYSTERY.

No One Knows Just How the Youngest of the "Signers" Died. By a strange trick of fate Thomas

Lynch, the youngest "signer" of the Declaration of Independence, was also the first one of these men to die. Lynch was born in Prince George parish, S. C., Aug. 5, 1749. He was

only twenty-six when the congress declared the independence of the colonies. Ill health compelled him to leave congress soon afterward, and near the close of 1779 he embarked on a vessel, intending to go to Europe for the benefit of his health.

The ship on which he sailed was never heard of afterward, and the fate of the youngest of the "signers" remains a mystery. It is supposed, of course, that the ship sank and that Lynch and all on board were drowned, | Shaving 15c but there were rumors that it was blown out of its course in a storm and wrecked on a lonely island of the West Indies and that some of the passengers

and crew were saved. Thomas Lynch was educated in England and was the son of a wealthy South Carolina planter. - New York

MUSIC'S UNIQUE QUALITY.

Wherein It Differs From Sculpture, Poetry and Painting.

Music finds its perfection in itself without relation to other objects. It is what it is in itself alone. It is nondefinitive; it does not use symbols of something else; it cannot be translated into other terms.

The poet seeks always a complete union of the thing said and the method of saying it. Flaubert seeks patiently and persistently for the one word which shall not only be the exact symbol of his thought, but which shall fit his euphony.

The painter so draws his objects, so distributes his colors and so arranges his composition as to make of them plastic mediums for the expression of his thought, and the greatness of his picture depends first of all and inevitably on his power of fusing his subjects with his technique.

In sculpture precisely the same process takes place. Neither of these arts actually copies nature. Each "arranges" it for its own purpose.

In music this much sought union of matter and manner is complete. The thing said and the method of saying it are one and indivisible. It is, as Pater says, "the ideal of all art whatever, precisely because in music it is impossible to distinguish the form from the substance or matter, the subject from the expression."—Atlantic.

Boorish and Urbane.

When we speak of a person as "boorish" we mean that he is rude, ill bred and uncouth. We seldom stop to think that the word originally meant nothing more than "rustic." Boor is the Tony Clark will soon be the same word as the German "bauer" and the Dutch "boer," signifying "a farmer." The manners of the peasantry are alluded to in an uncomplimentary way by the history of this and many other words in the language. "Heathen" and "pagan" meant simply "country bred" and "village bred" once upon a time. Culture and the higher civilized virtues were thought of as originating in towns and making their way slowly, if at all, to the rural districts. So we have as an antonym to "boorish" the word "urbane"—which originally meant "city-fied."—Cleveland Plain Dealer.

way lines and the third largest city of being the capital of a presidency considerably larger than Great Britain and Ireland. It is the seat of a university and its observatory keeps the

time for the whole of India. Many of the modern public and official buildings in Madras are handsome and imposing, but ever since Queen Elizabeth granted a charter to the original East India company, the building most rich in historic memories is St. Mary's church, within the precincts of the Madras fort, St. George, writes A. Hugh Fisher in the Illustrated London News, Standing one lates their own account of Toda ori-Sunday morning in the welcome cool- gin: ness of the Secretariat buildings, I was upon the site of the earliest inner fort, where divine service was held until St. main—subject to various additions and ing now existing in India. Among the along the north and part of the east and west sides of the church is one of Aaron Baker, the first president and governor of Fort St. George, with the oldest British inscription in India, dated 1652. The interior contains the many monuments and tablets to men famous in the history of the British occupation that the church is sometimes called the Westminster abbey of India. Nor are its records associated font of black granite in 1687 were bap-

married here in 1753, not far from the to have thrown his captives. This "Writers' Buildings," where, some and other cloud-girt heights beyond years previously, he had twice snapped were all of that deep blue color that a pistol at his own head; the name of gave the Nilgiris their name. Arthur Welleslev appears in the reg ter as a witness to another marriage in 1798. It is unfortunate that the edifice was not designed in a nobler style than was understood by its architect, the master gunner of the time, whose chief, and very reasonable, care was to make the walls thick and the roof rounded to resist artillery.

The Madras museum is especially rich in remains from the Buddhist boats recently, have sailed some of tope at Amaravati, many of the sculptures from which are familiar to Londoners on the walls of the grand staircase in Bloomsbury.

Through the Nilgiri Hills. Junction to Mettupalaiyam, the terminus of the broad-gauge railway, and there changed to the narrow gauge which climbs up the Nilgiri hills. The engine was at the rear, and from a seat on the extreme front of the train I was able to watch the scenery to advantage while the lookout man kept his eyes on the metals for any signs of landslip, such as we met in one deep cutting, where a piece of fallen rock lav across the line.

We crossed over clefts and gorges, by bridges, through the sleepers on British possession, Malta. which I could see foaming torrents far below my feet-and crept along narrow ledges with precipitous depths on one side and a rocky height soaring on

the other. "Ooty" itself (7,200 feet above sea level) is not unlike Nuwara Eliya in Ceylon, in its natural scenery as well as from the social point of view. Similar arum lilies were growing near a similar lake, and both places are crowded during the hot weather by jaded British seeking health and recreation. At the time of my visit, however, Ootacamund was empty. There on the golf links, there was no one at the hotels, and St. Stephen's church Julius Caesar. was almost as deserted as the cricket I saw some Todas, the men wearing a round the shoulders without any fastening. They are distinctly lighter than most of the other aborigines of southern India, and the skin of the women is of a still paler brown than that of the men.

Todas Are Interesting. The mountains and hills of India

have been the refuge of aborigines who fled before the advance of the Scythian or Mongolian origin. Today, San Nicola, near by.

ADRAS, dusty town of splen- the Todas number only a little over a did distances, with a harbor thousand, and are said to be steadily unprotected from storms, is decreasing, which may be partly acyet the terminus of four rail- counted for by their custom of polyandry. They have preserved their India. Its importance is less due to its traditions to an extraordinary degree position as a trading center than to its without any written language, and it is only to the complex ritual of their customs and ceremonies that they show the least servility. With an absolute belief in their own superiority ver the surrounding races, it would be difficult to find a people more innately conservative, but Mr. W. H. Rivers, during his masterly study of this most interesting race, came to the conclusion that they were far from lacking in intelligence. Their life is chiefly concerned with the keeping of their buffalo dairies, and in his records of their mythology Mr. Rivers thus trans-

"Behind On's buffaloes there came out of the earth a man, holding the tail of the last buffalo, and this was the Mary's church was built in 1678, to re- first Toda. On took one of the man's ribs from the right side of his body alterations—the oldest British build- and made a woman, who was the first Toda woman. The Todas then innumerous old gravestones now placed creased in number very rapidly, so that at the end of the first week there were about a hundred."

One of the finest views in the Nilgiris is that of the Droog from the rocky bluff called Lady Canning's Seat, about four miles from Coonoor, colors of numerous regiments, and so which is 1,000 feet lower than Ootacamund. To this I drove through the woods, one morning just after sunrise, along a road bordered at first with roses and wild heliotrope, past villas and tea plantations, past tall only with death and burial. In the tree ferns and tree rhododendrons crimson with blossom. Suddenly roundtized the three daughters of Job Charling a corner of the road I came on nock, whom he had by the Hindu wider landscape. ## The Red Mirage

A Story of the French Legion in Algiers

By I. A. R. WYLIE

(All rights reserved. The Bobbs-Merrill Co.) SYNOPSIS.

Sylvia Omney, her lover, Richard Farquhar, finds, has fallen in love with Captain Arnaud of the Foreign Legion. In Captain Sower's room Farquhar forces Sower to have Preston's I O U's returned to him. Farquhar is helped to his rooms by Gabrielle Smith. Sower demands an apology. Refused, he forces Farquhar to resign his commission in return for possession of Farquhar's father's written confession that he had murdered Sower's father. Gabrielle saves Farquhar from suicide. To shield Arnaud, Sylvia's fiance, Farquhar professes to have stolen war plans and tells the real culprit why he did so. As Richard Nameless he joins the Foreign Legion and sees Sylvia, now Mme. Arnaud, meet Colonel Destinn. Farquhar mets Sylvia and Gabrielle, and learns from Corporal Goetz of the colonel's cruelty. Arnaud becomes a drunkard and opium smoker. Sylvia becomes friendly with Colonel Destinn. Arnaud becomes jealous of Farquhar. Farquhar, on guard at a villa where a dance is in progress, is shot down by Arnaud. Arnaud justifies his insanely jealous action to Colonel Destinn. Arnaud goes to a dancing girl who loves him for comfort. Gabrielle meets Lowe, for whom she had sacrificed position and reputation, and tells him she is free from him. Sylvia meets Destinn behind the mosque. Arnaud becomes ill but Sylvia will not help him, nor interfere for Farquhar. Gabrielle, aidling Farquhar, who is under punishment, is mistaken by him in his delirium for Sylvia. Farquhar delivers a message to Destinn at night and finds Sylvia with him. He learns that it was Gabrielle who aided him.

There are women who appear able to fool all men with their wiles, but they can't fool smart women. Sylvia made men miserable wherever she wentmade them throw their lives away recklessly. But the dawn of a day of reckoning is beginning for her, and a woman of her own sort is the instrument.

CHAPTER XIV-Continued.

"Faithful friend!" He caught her hand roughly from the bridle. "There

is something in all this I don't understand. Have I been mad-or dream-"Dreaming, Richard."

"Oh, I remember—'the men who follow mirages die.' That was the night when she came to give me 'God speed,' and it was for that man who wished Richard and he had been more But they neither cursed nor comcame to me that night on the plateauwho saved me? Was it you?"

"Yes."

"Will you come to me?" Gabrielle Smith did not answer for moment. Her eyes rested steadfastly, significantly, on the faded, powdered face.

"I think-better not, Mrs. Farquhar. You know nothing about me-not even whether I am respectable-"

"You are the woman who has given me the hope that I may see my son again before I die. That is all I care about! I am an old woman, Miss Smith, and what lies before me is al-

"Yes." Gabrielle answered simply. "Then I rely upon you. Here is

daringly self-assured than ever. For you accompany me to my carriage?" small, sunburnt face. Whereupon with a flash of malicious enjoyment.

"When we women go to the devil we go all the way," she said. "We a comparatively respectable abode. have actually made Sylvia Arnaud faint." She sank back among the cushions with a sigh of relief. "And that will be my consolation on my down? I certainly didn't expect any deathbed," she finished, almost cheer

CHAPTER XVI.

In the Teeth of the Storm.

During the first night of that great march southward they had sung lustily. Now they were silent. No man spoke even to his neighbor. From time to time they exchanged glanceslightning, stealthy glances, which passed unnoticed. But that was all. It was the only sign that they were

The last village lay behind them. Two hundred miles away there was Sidi-bel-Abbes. In those two hundred affectionate eyes. "And so you are had disappeared. Their memories ometimes lonely? If it were not for were blank. Mechanically as each dishind them they dropped stupidly into "Yes, of course, if it were not for the burning sand and five minutes Desire—" She stopped, as though later mechanically rose and went on stretched like a string of pearls into the darkness, and the bivouac fires shone brightly, but they did not sleep. They sat, huddled together for shelter against the blasting cold of the desert night, and stared in front of them, or at one another. Before the dawn eyes were red-rimmed and bloodshot so charmed with him, you know, and with the sand and the glare of the sun. friendly. Poor Richard!" Sylvia's plained. Only from time to time they

The day was cloudless. Since dawn formless gloom hovering above the slow-moving line swept together in one stupendous shadow which rushed down upon them. Colonel Destinn galloped furiously along the wavering, stricken line of men.

"Campez! campez! Each man for himself!"

Then it was upon them. The sun was blotted out. The sand was everywhere. It came like a blast out of hell's furnace and crept into their eyes. their mouths, their lungs, their very hearts. It eddied round their feet, mounting steadily to their knees, and around them there shrieked the hurricane itself, an awful army of articu-

late, destroying myriads. In that first moment Farquhar reeled forward, instinctively fighting the gallness of a body goaded by intolerable torture, then he dropped quietly to his knees and waited for the end. He heard the scream of a horse in terror, and a thud as of something falling close beside him, but he remained indifferent. Stubbornly, doggedly, he awaited the final consummation of his

release. Then something touched him. He awoke with a curse of resentful agony. A hand had groped through the darkness. It gripped him, and he dragged himself to his feet, lifting the heavy, invisible body with him. The sand beat down upon them. He turned his back to the storm. He stamped the shifting, whirling mass under his feet, and with a woman's generous tenderness sheltered the motionless unknown man against his shoulders. No word was spoken. Eternities of suffering, in which each moment was the last, bore down upon him. There was no time in that hideous, revolving obscurity-all the landmarks of life had been swept away, and he was pitted against the full force of death itself. He dropped back. With an effort he gathered the unconscious man closer, keeping his face uppermost. Then he lay still, wondering if this were death. . .

Has the time come for a rec-

ognition of kinship between Richard and one of his enemies -Colonel Destinn, or Captain Arnaud?

(TO BE CONTINUED.)

Optimistic Thought. The jealous feed on jealousy, yet

NEW MOLE HOME.

"Mr. Mole was going to get married," said Daddy, "and he wanted to build a fine, fine Home for the new Mrs. Mole. So he went forth into the nicest meadow he could find, and there, just at the end of it, near an old fence, Mr. Mole started to burrow into the ground.

"You know the Moles live underground almost all of the time, and there make their Homes. Just near the fence Mr. Mole began to dig and dig. First of all he made a long, long tunnel, a funny underground passage which he called the Drive-Way of his

"Of course the callers of Mr. and Mrs. Mole could hardly drive along this tunnel, but they could run and scamper along, and they liked to call it by a big name like Drive-Way.

"And after the long, long tunnel Mr. Mole started in to make a fine House out of the earth. He made lovely rooms, one for Mrs. Mole, one for himself, one for the little Mole who was to do the cooking and housekeeping and several for guestrooms. For, as you can imagine, Mr. Mole was very fond of company. In addition to all this Mr. Mole built a very fine picture gallery made in tiers of earth and mud-long rows and rows of it. On these he put pictures of his family which he made out of earth, too. Of course, Mr. Mole made every member of his family look just alike, but that didn't make any difference. The Moles are not very fussy if their pictures aren't very well taken, for they can't bother to look at pictures much of the time.

"You see their eyes are very small and they like to look at things more worth while-such as food and corn starting to grow in the ground and all the things the Farmers plant. They love farms you know, where wonderful vegetables are planted deep down in

"Please Admire My Dress."

the earth. They are very apt to burrow along and make paths so they can

"But I must tell you more about Mr. Mole's new home. The very last thing he did was to build a beautiful throne in the picture gallery for Mrs. Mole.

"At last it was time for her to come to her new Home and Mr. Mole had invited their friends and cousins, the Cricket Moles, to come, too. These cousins have very strangely shaped front legs with which they burrow homes just like the regular Moles, and so they are considered relations.

"'Here we all are,' said Mrs. Mole, and she blinked her very small eyes, while all the other Moles blinked their tiny eyes, too, and looked about them. Through the Drive-Way they ran until they came to the House with all the beautiful rooms.

"The room Mr. Mole took them to last was the picture gallery, where Mrs. Mole sat on the throne in honor of her wedding day, and the little Mole, who cooked, brought out some of the delicious stewed vegetables she had made for the wedding feast.

"You should have heard the Moles as they looked at the pictures. They thought every picture was one of their own relatives. "One Mole would say:

"'Why, there's Mamma,' and another

would sav:

"'Why, no, that's not your Mamma, that's my Papa.' However, they didn't get in the least angry about the pictures-in fact, they thought it very clever of Mr. Mole to make pictures which looked like all their relations at the same time.

"'But you haven't noticed my wedding dress,' said Mrs. Mole. 'I think my new Home is S-C-R U-M-P-T-I-O-U-S, which means beautiful in case any of you little Moles don't understand the word I've said in honor of the day. And now that you've all admired my Home, please admire my dress. "For the first time the Moles noticed

that Mrs. Mole had attached to her tiny ears little earrings made of mud with a red berry in each, and she wore a necklace to match. Her dress was of dull oak leaves which Mrs. Mole had saved for a whole year to wear on her wedding day.

"'You're a handsome Mole,' said Mr. Mole, 'and I'm so proud you're to share this Home I've made,' and all the other Moles grinned and ate more and more of the vegetable wedding feast to show what a good time they were having."

There is such a thing as being so "scholarly" that one is dense.

#### WOMEN OF CALIFORNIA SHOULD TAKE ADVICE.

Sacramento, Cal.—"My mother was

sick many years, she had a chronic trouble, peculiar to women, of the worst form. Nothing she could find gave her any re-lief. At last she started taking Dr. Pierce's Favorite Prescription along with the 'Golden

ery.' It was not long before she commenced to build up—her strength re-turned and her general health was per-Any woman suffering with this complaint, no matter if of long standing, can be cured by using these won-derful medicines."—Mrs. M. SAPUNAR,

Health always brings wealth of beauty. A healthy state of the system comes with Doctor Pierce's Favorite Prescription. It's a medicine prepared for woman's ailments-it cures those derangements and weaknesses which make a woman's life miserable.

It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription for its ingredients are

printed on the wrapper. Women are earnestly advised to take it for irregular or painful periods, back-ache, headache, displacement, catarrhal condition, hot flashes, sallow complexion and nervousness.

### A GREAT OFFER

If you will cut this out and send 3 dimes to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., you will receive a 100c-page book, bound in handsome cloth. fully illustrated, all charges prepaid.

## Turning Night Into Day Robs the Children of the Sleep They Need

By SAMUEL G. DIXON, M. D. Commissioner of Health of Pennsylvania

entertainment keeps the nerves keyed up and upsets the equilibri-Children espe-

suffer from late first two years of

great essentials. Babies should sleep from 15 to 20 ours out of the 24, and older children rom 10 to 14 hours. It is not an unsual thing to see babies in arms or very young children being carried bout until their parents' bed time. This is very injurious to the children and cannot be made up by additional est the next day.

The present habit of turning night | late is a strain on their nervous sysnto day in our highly illuminated tems which, while it may not be imtowns, with all mediately apparent, is bound to exert sorts of exciting a detrimental influence in the long run. Oftentimes the ill effects are perfectly apparent to the intelligent observer.

Irritableness and any of the train of evils which result from an overtaxed nervous system may result from concially are apt to tinually robbing the child of sleep. A regular bed time should be set for hours and conse- children according to their age, rangquent lack of ing from six o'clock for babies to eight sleep. For the for children of eight or nine, and this should be regularly adhered to. This ife, eating and sleeping are the two is a matter of the utmost importance in establishing a sturdy constitution in childhood.

With adults, irregularity and short hours of sleep are often a factor which predisposes to ill health. There are exceptions to this as to all rules. Occasionally one will find an individual who has an unusual capacity for work with less than the ordinary amount of rest, but for the ordinary man or wom-Permitting children to remain up an this would end disastrously.

#### Did You Ever Notice These Strange Traits Exhibited by Many Animals and Insects?

There are a great many strange acts about animals and insects that seem to defy explanation. Here are few, an exchange says:

A fly will crawl to the top of a winlow pane, fly back to the bottom and crawl up again. Hardly ever does it ly up and crawl down. It has been known to repeat this former act over 0 times before stopping.

Hens always scratch for food with the sun behind them. A blind hen always manages to get the sun behind her when scratching, and she will miss out few bits of food.

Cats hardly ever lie with their feet to the fire. In most cases they lie instead with their left side to it. Dogs invariably lie with outstretched paws to the fire. A mouse overlooks a perfectly safe

food supply, sufficient for a meal or two, to enjoy the perilous pleasures of pated and all knocked out, just go to an unlimited store. It will hide near your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a hungry, for it is not true that a mouse If a small snake is kept in captivity

## Circulating Medium.

One of the latest novelties offered by the street vendors in the financial district is Mexican paper money issued by more or less recent administrations-Huerta, Villa, Madera, etc. The price for all is about the same, a general average being about 10 cents per pound, and the denomination of notes making no particular difference. This places the currency on a par with Confederate money during the closing days of the war, when the finances of the Southern cause were at their lowest ebb.

"That's a fine horse you have," said one Confederate officer; "give you \$25,000 for him."

"Twenty-five thousand, nothing!" retorted the officer. "I've just paid ten thousand to have him curried."-New York Times.
